29 September 1978

Extract from the Staff Meeting Minutes of 29 September 1978:

X1. [] said that General Tighe and Admiral Robertson agreed last week with the Director's approach to handling indications and warning intelligence. Within the last couple of days, however, they have apparently expressed resentment about the way this decision was reached, believing that the Department of Defense was not adequately represented and that the final decision was slanted too much toward the Director. He noted Admiral Murphy or Secretary Brown may approach the Director on this topic. Bowie suggested that Mr. Carlucci discuss this matter with Under Secretary of State Resor, but Mr. Carlucci thought doing so might further aggravate Admiral Murphy. Lehman highlighted his understanding of Admiral Murphy's feelings on this topic and said that he would be seeing him this afternoon. X1 Mr. Carlucci asked that Lehman advise him of the results of this session and asked EA/DCI [] to put this item on the Director's agenda for his next meeting with Secretary Brown. (Action: NFAC)
